### 3. 세부진행 내용

#### (1) 워크숍의 목표와 내용

Seize the opportunity during the slowdown to develop your urban design skills and position yourself at the forefront of the design agenda. Attending the CABA urban design summer school will allow you to invest in your skills or those of your organisation. Invest in your personal skills and knowledge in the key interdisciplinary area of urban design. In difficult times those who have specialist knowledge and broad place-making skills succeed. Invest in private sector skills. Make sure your key people are prepared to work as effectively as possible, with vital skills and knowledge in place-making. In a slow market, quality and value-added design sells, so invest in skills now and prepare your firm for today and for growth during the upturn. Invest in public sector skills.

The public sector is picking up the pieces but new skills are needed to deliver quality development. The slow-down in activity is an opportunity to develop policies and guidance for design quality and to invest in the public realm as a stimulus to development. These both need urban design know-how and the CABA urban design summer school will help your staff lead the design agenda and promote good design principles.

**At the sixth CABA urban design summer school in Bristol you will:**

- **Hear from challenging and inspiring speakers**
- **Learn through doing in our collaborative 'big design project'**
- **Interact with people from all the professions that influence the built environment**
- **Update your skills, build your confidence, renew your commitment.**
- **Find out how urban design can help us understand, make and re-make places**

Bristol will be your classroom. It has history, topography and diversity. It has **historic streets, regenerated waterfronts, revitalised public spaces and a brand new retail quarter**. Join us here next June and you will leave inspired, challenged, delighted and exhausted. You'll also be armed with the knowledge and skills to make great places.

## Speakers

Each year the summer school recruits the industry's leading thinkers and doers to discuss and work with teams on the key issues for urban design now and in the future.

**This year you will hear nationally and internationally recognised speakers from a range of organisations, including Studio Egret West, Bauman Lyons, Hamilton-Baillie Associates, The Prince's Foundation and the World Health Organisation.**

## (2) 워크샵강연자

### Speakers in alphabetical order

#### **Ben Hamilton-Baillie**

Ben Hamilton-Baillie is an architect, urban designer and movement specialist. As director of Hamilton-Baillie Associates Ltd. he provides consultancy advice on traffic and urban renewal for a wide range of local authorities, government agencies, developers, and community groups.

#### **Irena Bauman, Bauman Lyons Architects Limited**

Irena Bauman founded Bauman Lyons in 1992, and has been involved in developing wide range of projects. The practice is especially interested in mixed use, urban regeneration projects which tap into cultural creativity and aim to achieve new standards of sustainable development. She is also a CABI commissioner, CABI Champion for Yorkshire and Humber and chair for the Research Group.

#### **Jayne Bradley, Sense City**

Jayne Bradley is the director of Sense City, a practice based consultancy offering policy solutions to health and the environment through rethinking the food system, collaborating with regeneration and built environment professionals to integrate food into community, spatial and local plans. Sense City also works with community groups encouraging bottom up interventions with local food networks, supporting local food businesses, urban agriculture and practical approaches to sustainable urban neighborhoods.

**Joost Beunderman**

Joost is an Associate at the think tank Demos, where he has led several projects on urban regeneration, public space and third sector involvement in the creative economy. He has published numerous works on urban policy and he is currently working with Zer'o Zer'o on a range of research and strategy projects with partners such as the Watershed digital media centre (Bristol), Urban Initiatives, Bradford City Council, and NESTA.

**Marcus Grant**

Marcus is a chartered landscape architect, and deputy director of the WHO Collaborating Centre for Healthy Cities and Urban Policy. Situated at the University of the West of England, the centre supports synergy between sustainable development, health and design through research, consultancy and teaching. Recently he has been working with the Department of Health in the South West to develop healthier urban places through examining the positive role that urban design can play.

**Sandy Halliday, GAIA Research**

Sandy Halliday established her own research and consultancy practice – now Gaia Research – in 1996 to develop sustainable solutions for the built environment. Sandy has recently been appointed Professor of Engineering Design for Sustainable Development by the Royal Academy of Engineering to assist in embedding sustainable design throughout engineering education.

**Indy Johar, 00:/**

Indy is a co-founder of 00:/, a unique organisation which seeks to fuse the boundaries of policy, strategy and design to deliver integrated sustainable futures. Over the course of the last 3 years 00:/ has grown its skill base ranging from policy research and brief strategy to architects and urban designers. He is also a Demos Associate and Fellow of the Royal Society of Arts. Indy has also written several publications including "Sustainable Suburbs" (for RICS & CABE), "Future Planners" (for DEMOS) and "Barcelona London" (for DEMOS).

**Sandra Manley, University of the West of England**

Sandra is Director of the Short Course Programme for the School of Built and Natural Environment at UWE and a planner by background. She is a regular contributor to UWE's extensive programme

of short courses and has spoken at international seminars and conferences as well as at UK based events.

**Paul Murrain, Consultant**

Paul is an urban design consultant, and (former) Senior Lecturer and Course Chairman at the Joint Center for Urban Design in Oxford, England. Paul was appointed as Visiting Professor at the University of Greenwich in 2007 and invited to be an Academician for the RIBA's Academy of Urbanism in 2008. He has recently been appointed to CABE's Expert Panel on Strategic Urban Design.

**Noha Nasser, Birmingham City University**

Noha Nasser is Director of the national Centre for Urban Design Outreach and Skills (CUDOS) at Birmingham City University developing community-centred urban design solutions and advancing community cohesion. She teaches on the MA Urban Design, is a member of both the West Midlands regional design review panels, Arts Council West Midlands, and the Urban Land Institute in Birmingham. Noha is Project Director of the CABE Urban Design Summer School 2007-9.

**Professor Alan Jackson Simpson MSc RIBA MRTPI**

Professor Alan Jackson Simpson is an architect urbanist, teacher and writer. He has worked around the world, with government, industry and academia to respond to critical social, economic and environmental urban planning and urban design problems and opportunities. Alan is currently Head of Urbanism at the Mackintosh School of Architecture in Glasgow.

**David West**

David is a partner of Studio Egret West, a planner and urban designer who specialises in urban visions and strategic framework plans. Having set up Studio Egret West with Christophe Egret in 2004, David has pursued a passion for delivering place specific strategies and solutions. He is a member of CABE's 2012 Design Review Panel and sits on the RIBA Building Futures Steering Group.

워크숍 대상 SITE 일부

150년전 도면부터 제공되어 역사적 맥락을 파악한 후 도시설계를 진행하도록 구성되어 있다. 시간적 맥락을 진지하게 고려하는 접근방식을 강조하고 있다.

워크숍 중 팀별 계획안 도출 작업

다양한 전공의 도시설계관련 실무자, 공무원들이 모여 스튜디오 작업을 진행한다.

Redcliff Gate에 대한 Design Concept도출

Harbor Basin에 대한 Design Concept도출

대상지에 대한 열띤 토론을 거쳐 도출된 디자인 개념은 개략적으로 도면에 표시하여 전시하는데, 최대한 다양한 방법을 통해 명확하게 프리젠테이션하도록 유도한다.

강연과 토의

도시설계와 관련된 다양한 업무를 진행하는 이들의 강연과 토론은 시사적인 도시설계이슈를 영국적인 맥락에서 전달하고 있다.

#### Dragon의 선택

최종적으로 각 팀의 설계안을 선택하는 Commissioner 및 CEO들의 선택이 이루어진다.

## (5) 워크샵의 성과정리

### 가. 영국의 도시설계현황에 대한 이해증진

최근 친환경 및 보행을 중심으로 하는 도시설계의 흐름을 이론적으로, 실무적으로 영국에서 어떻게 대처하고 있으며, 진행하고 있는지에 대한 전반적인 이해를 120여명의 도시설계실무자 및 20여명의 강사진을 통해 전달받을 수 있었다.

### 나. 도시설계의 세부적인 기법개선

도시설계과정에 있어 직접적으로 적용할 수 있는 설계기법 및 표현기법에 대한 팁을 교육받으며, 실제 스튜디오 작업을 통해 개선할 수 있었다.

### 다. 도시설계에 대한 국가적 차이에 대한 인식제고

영국의 도시설계에 대한 도시설계 이론가, 실무자들의 사고를 접하면서, 우리와 다른점, 우리와 다른 맥락을 이해를 높일 수 있었으며, 그러한 차이중 가장 큰 것은 도시설계 개념에 대한 충실한 이해와 이행방법의 모색이라는 점이였다.

### 라. 기존도심의 가치에 대한 국가적 노력의 의미

영국에서는 기존 도시를 전체적으로 개발하려는 생각은 가지고 있지 않으며, 기존의 역사와 문화를 최대한 보존하여 개발하려는 원칙을 가지고 있고, 이러한 원칙은 형식적인 것이 아니라, 실제 프로젝트의 진행에서 반드시 달성하겠다는 의도가 다각도로 관철되고 있다.

### 마. 도시설계의 공공성 확보방안으로서의 교육

이 워크샵은 매년 100여명의 도시설계 실무자들을 대상으로 도시설계 분야의 국가적인 리더들이 모여 헌신적으로 교육을 실시하는 프로그램으로, 담당 실무자, 공무원들로 하여금 도시설계의 가치와 방법론, 도시설계에 대한 토론방법 등을 교육함으로써, 영국의 도시공간의 설계와 운영에 있어 더 높은 가치를 창출하도록 하는 중요한 프로그램이며, 우리나라에도 이러한 교육이 반드시 이루어져야 할 것으로 판단된다.
